

PECI 2024

Power and Energy Conference at Illinois

April 19, 2024

University of Illinois at Urbana-Champaign

Join us at PECE 2024, the 15th Annual Power and Energy Conference at Illinois, a perfect venue to investigate future power and energy technology and research. This conference assembles experts drawn from academia and industry to participate in a forum for technical presentations and engage in professional development. PECE 2024 is a single-day, single-track conference featuring top researchers.

The University of Illinois at Urbana-Champaign is centrally located for IEEE Region 4 universities and major power and energy companies. Graduate student-organized and led, PECE 2024 promotes discourse and collaboration broadly across the power and energy disciplines.

Electrical and Computer Engineering Building (ECEB)

**Organized by the IEEE PELS/PES/IAS
Joint Student Chapter at the University
of Illinois at Urbana-Champaign**

Faculty Advisors:

Professors Kiruba Haran & Philip T. Krein

IEEE

Call for Papers & Posters

All aspects of power and energy systems are welcome at PECE 2024. Major topics include, but are not limited to:

- Power Systems
- Power Electronics
- Machines, Electromechanics, and Drives
- Renewable Energy Technologies
- Energy Markets and Demand Response
- System Reliability and Control

Papers presented at the conference will be submitted for inclusion into IEEE Xplore, subject to meeting IEEE Xplore's scope and quality requirements.

Submissions, registration, organizing committee, and lodging details available at:
